

Breathe Easy

Neutral colours and subtle marbled textures form the backdrop of this spacious and airy home. A half-wall was hacked and replaced with glass to open up the spaces and accommodate a small home gym, and distinctive light fittings were paired with track lighting for visual interest and mood-altering lighting options. The all-encompassing vibe is inviting, uplifting and functional.

PROJECT IN•FO

Theme
Modern

House type
HDB X rooms

Location
Choa Chu Kang

Budget
\$45,000

Designer-in-charge
Iris

A cement screed coating with a hand-finished effect was applied to the TV feature wall, creating high impact at low cost.

The 'less is more' philosophy was applied to a home that retains all the requirements of a happy and comfortable life.

Top: Venetian blinds provide privacy on demand in the study cum home gym.

Bottom: A combination of natural and designer lighting creates and alters the mood in the open concept living and dining space.
